SECTION 405.150 B 8

- 8. A line fence, up to six (6) feet in height, may be built on the property line of adjoining property owners with written permission of such adjoining property owners, provided that all support structures for said fence face the builder's property, and the fence shall be attractive, sturdy, safe, uniform and of even dimension. If adjoining owners do not give written permission for building of the line fence, the person proposing to build the same may do so provided the builder of the fence provides a legally admissible land survey locating the back lot boundary line and the side lot boundary lines, and provided further, that such fence is so constructed that the support structures face the builder's property and the fence is attractive, sturdy, safe, uniform and of even dimension. Fencing of required front yard must not exceed four (4) feet and be open at least thirty percent (30%) of the total surface as measured in lineal feet (one (1) side). A privacy fence, with required set back, can be totally enclosed as long as all support structures for said fence are concealed from the neighbor, and the privacy fence does not encroach in the required front yard. Privacy fences may be up to six (6) feet solid.**

- 9. In any Residential District, no fence, structure, or planting shall be maintained with thirty (30) feet of any street intersection.**
